FIREMAN'S DRAG RELAY

Preparation: neckerchiefs; participants divided into 2 teams

Two teams – half the members of each team are firemen, the other half are victims and are laying on their backs. On signal, the first fireman runs up to his victim, ties his wrists together with a neckerchief, and pulls him back to the starting line with the fireman's drag. He touches off the next fireman, who then rescues his victim. First team to bring in all their victims wins.
