Knotty Knots

By Barb Stephens

Knot Descriptions

Match each description on the left to the appropriate knot name on the right.

For tightening and loosening a rope easily and on guy lines.

Square Knot

For tying a rope to a post or ring; it's strong but easy to loosen.

Tautline Hitch

For tying a rope to a tree or post.

Clove Hitch

Used when you want a loop that will not slip or close up; used for rescue work.

Sheet Bend

For tying two ropes together and for tying bandages in first aid.

Bowline

For tying two ropes together, especially when one is thicker than the other.

Two Half Hitches

Forget-Me "Knots"

Match the knot picture to the knot name.

Square Knot
